The Eiffel Tower, the first project finance project | by ...

The City of Paris's Eiffel Tower, the world's tallest structure at its completion in 1889, has come to symbolize Europe itself. It is an embodiment of what we now call project finance. Under this model, a public grantor awards a concession to a project's private sponsor. The sponsor builds the project, financing it with equity and (mostly) limited-recourse debt, and uses revenues from operation of the project to service the debt.
